Underlying Fund MFS International Equity II

Volatility Analysis

Investment Objective

This fund targets an annualized return higher than that of the MSCI EAFE Net Index, expressed in Canadian dollars, over four-year moving periods.

Benchmark

MSCI EAFE Net

Investment Strategy

This fund, actively managed, aims to provide long term capital appreciation by investing primarily in equity securities of companies located outside of Canada and the United States. The fund manager invests in securities that represent the most attractive opportunities to provide above-average, durable growth while also being attractively valued. It relies on individual stock selection as the primary source of added value, favouring high quality companies identified through the firm's global research platform.
